

## 2012 California Anesthesiology Medical Student Symposium Hotel and Flight Information

We have compiled some information to help guide symposium attendees in planning their travel to the Orange County area. Please email symposium coordinators if you have any questions regarding the information below.

### Airports

- John Wayne Airport (SNA) is extremely close to the school (3.2 miles).
- LAX is 45 miles away, or about an hour's drive. A taxi would be VERY expensive; Super Shuttle or other shuttle would be more reasonable if you have to fly into LAX.

### Hotels

All hotels listed below are less than 3 miles from UCI and in close proximity to the John Wayne Airport. Most hotels offer a shuttle to/from the airport. These are not the only hotels in the general vicinity, simply the closest and reasonably priced for that area. This information is intended as a guide to planning. Feel free to look for additional hotels if the ones below do not meet your requirements. Please see map below for more specific location information.
